## PUBLISHER'S STATEMENT OF COPYRIGHT AND LIMITATION OF LIABILITY

Reproduction of any part of the 1991 Numismatic Dealer Directory without written permission of the Coin Dealer Newsletter is a violation of copyright law and is specifically prohibited. The CDN will strictly respond to any and all violations of the CDN copyright.

Every precaution has been taken to avoid errors and omissions in the 1991 Numismatic Dealer Directory, both in the directory listings and in the display advertisements. The Coin Dealer Newsletter expressly rejects any liability for errors in the listings due to incomplete, inaccurate, or omitted information. The free dealer listings may be corrected for the 1992 Numismatic Dealer Directory by submitting one of the Change of Address coupons provided at the end of the "GREYPAGES" advertising section.

Every precaution was also taken to correctly include all display advertising. Should any error have occurred, an advertiser is limited in recovering for any loss or omission to a pro-rata abatement of the charge paid for such advertising in the proportion that the error reduces the value of the entire advertisement. In no event shall such recovery exceed the amount paid to the Coin Dealer Newsletter. An advertiser can substantially avoid the risk of errors or omissions by submitting camera-ready copy, which we encourage for all display advertising.

Note to consumers: The 1991 Numismatic Dealer Directory has been prepared for use by members of the numismatic dealer community. As consumers, only you can decide what services or products best meet your needs. The inclusion of any dealer in the 1991 Numismatic Dealer Directory DOES NOT MEAN that the Coin Dealer Newsletter has endorsed the products or services of such dealers. Neither the listing of dealers nor the display advertising constitutes an endorsement of the individuals concerned, their companies, business practices, or products. Furthermore, you should be aware that "GREYPAGES" advertisers are subject to various local, state, and federal laws and regulations; the enforcement of such laws and regulations is the responsibility of the appropriate agencies.

## USING YOUR 1991 NUMISMATIC DEALER DIRECTORY

Your **1991 NDD** contains three sections, each having a specific significance to the whole directory. The first section is primarily a cross-referenced, alphabetical listing of **bolded** personal names (by last name) and CAPITALIZED company names. The personal names of numismatists will be followed by their company name and the state under which it will be listed in the second section. To make finding someone even easier, we have also listed company names. When the company name is the same as the numismatist's name, you will be able to locate them either way. For example, Julian M. Leidman will have two cross-references: Under J, "JULIAN M. LEIDMAN, MD" gives you the company name and state; Under L, "**Leidman, Julian M.**, MD, Julian M. Leidman" gives you the state and company name for his full address. Both types of listings will be followed by telephone numbers where available.

The second section lists dealers alphabetically by state, and therein alphabetically by their company name. Company names that start with an initial, such as D&G Coin Co. are listed at the beginning of each state section, as are company names starting with numbers. If you know the company name and state, you might want to go directly to the middle section to obtain the address or telephone number. When an individual's name is also the company name, **keep in mind that the listing will be alphabetical using the first name**. For example, since Julian M. Leidman is also the name of his company, his address can be found listed alphabetically in Maryland under the **J** (for Julian) listings. Within the second section, we have highlighted with blue ink those "GREYPAGES" advertisers with full-page and half-page advertisements. We encourage you to read all advertisements; they contain important information, and without the support of these leading dealers this directory would not be possible. The state headings are also highlighted in blue for easier use.

The final section of your **1991 NDD** contains the "GREYPAGES" advertising. Included are many of America's leading numismatic companies—companies who were sure that this directory would be one of your most useful numismatic tools. The "GREYPAGES" begin with an index which lists all of the various advertising categories. Under each topic, you will find the specific advertisers with expertise within that area. You will also find cross-references in red ink directing you to advertisements under other categories. We encourage you to use your **1991 NDD** to the fullest.

The information contained in the **1991 NDD** has been updated to the best of our ability based upon the responses you made on the cards returned to us, plus the most recent public information available. Every effort has been made to insure accurate and complete information for every listing. If any of the information in your listing is not correct, please notify us as soon as possible so that we can update our files. This will also help you—should we receive an inquiry, we can provide the corrected information. In the back of the directory we have enclosed several coupons for updating your pertinent data. Please use these whenever appropriate—and remember that many areas have new telephone Area Codes.

We hope that you find the **1991 Numismatic Dealer Directory** to be a useful tool throughout the year. And please don't forget to send in any updated information.

the COIN DEALER  
newsletter

## The Greysheet

(as the Coin Dealer Newsletter is often called) has been the standard wholesale pricing guide of the coin industry since 1963. It is an up-to-date reporting of dealer-to-dealer Bid/Ask prices on rare coins from the earliest through the most recent issues. (For 28 years we have given our subscribers the most comprehensive and unbiased report on the entire coin market with all the facts necessary to make informed buying and selling decisions). The CDN is published weekly to enable you to keep pace with the often dramatically changing price levels. Plus your subscription includes FREE monthly supplements. All coin dealers have discovered how invaluable the "Greysheet" is.

CERTIFIED COIN DEALER  
newsletter

## The Bluesheet

The independent, unbiased professionalism that has brought you the Greysheet for 28 years, brings you the ultimate price guide for the certified coin market. The CCDn reports the highest known Bids of actively traded PCGS, NGC, ANACS, and NCI coins. The Certified Coin Dealer newsletter brings you an intensive look at the certified coin market and the variables in price structure among the industry's leading grading services.

the CURRENCY DEALER  
newsletter

## The Greensheet

The Currency Dealer Newsletter covers dealer-to-dealer Bid/Ask prices on U.S. fractional currency, large size U.S. notes, small size U.S. notes, uncut sheets, small size currency and in-depth articles and analyses. This monthly publication is the only up-to-date pricing guide available in today's ever-changing Paper Money market.

CCDn ASKSHEET

## The Asksheet

The CCDn ASKSHEET provides a monthly listing of the lowest Asks or Last Trades on coins listed in the Bluesheet. This is the Bluesheet companion that dealers and investors demanded, for fullest analysis of pricing on certified coins. Even if the sight-unseen Bid reaches unrealistically low levels, having wholesale Low Ask or Last Trade information available will allow dealers to make more informed buying and selling decisions.

An important note about all of our Newsletters  
The publishers of these price guides do not buy  
sell or trade coins. In short, there are no persuasive  
forces that might distort the true market picture

# Thinking of selling?

Let Bowers and Merena get the best prices for you!

**Right now** we are accepting consignments for our upcoming program of sales to be held in New York City and other Metropolitan centers.

**Experience:** Of the top 10 world's coin records, we hold eight, including six of the top seven! We also hold the record for selling the three most valuable coin collections ever auctioned: (1) The \$25 million Garrett Collection for The Johns Hopkins University, (2) The \$20 million Norweb Collection, and (3) The \$12.4 million Eliasberg Collection of U.S. Gold Coins. Over a span of many years we have sold approximately \$200 million worth of coins for over 10,000 consignors. Whether you have several thousand dollars worth of numismatic material or \$25 million, you've come to the right place!

■ The 1861 Paquet Reverse double eagle sold in our Norweb Collection sale for a record \$660,000.

**Expertise:** Your coins and paper money will be catalogued by such well-known numismatic experts as Q. David Bowers, Dr. Richard Bagge, Michael Hodder, Raymond Merena, Andrew W. Pol-

lock, Mark R. Borckardt, and Elizabeth Arlin, backed up by full in-house facilities, including our Photography Department, our Graphics Department, and others. The result is a beautiful and authoritative catalogue which will highlight your numismatic material to its best advantage. Did you know that our catalogues have won more "Catalogue of the Year Award" honors, including 1989 and 1990 honors (given by the Numismatic Literary Guild) than have ALL of our competitors combined? There must be a reason!

**Reasonable Rates:** For one low commission rate to you, the seller, plus a fee charged to the buyer, we handle EVERYTHING—from complete insurance starting the moment we acquire your coins, to cataloging, to photography (of impor-

tant pieces in full color), to advertising and publicity—in other words, all you have to do is figure out what to do with our generous check!

**Pleasurable Transaction:** We offer you a pleasurable, enjoyable transaction. At Bowers and Merena, the entire team is on your side!

■ Rick Bagge, Director of Auctions at Auctions by Bowers and Merena, Inc.

# **CREDIBILITY**

## **A GOAL THAT'S NOW A REALITY**

As numismatics grew from a hobby to a business to a major industry, it became evident that its growth was limited because of a lack of investor confidence—a real credibility gap. Simply put, the investment community and the investing public has not felt confident in the consistency of the industry's grading. They therefore could not view investing in coins as a sound investment option.

### **Those days are now over.**

The NUMISMATIC GUARANTY CORPORATION OF AMERICA (NGC) has been formed to provide the industry with an independent, credible and superior coin grading service. Now dealers, collectors and investors can be confident that they will get consistent coin gradings, time after time.

And NGC plans on doing a great deal more. In the coming months we will be announcing a series of new plans and programs designed to foster the industry's pride, and promote professionalism and growth. NGC is committed to insuring that never again will our industry have a crisis in credibility—Now that's truly incredible.

# Certified Coin Dealer newsletter

Now that the market for certified coins has stabilized, it is time to brush-up on the current market. The **Certified Coin Dealer newsletter**, published by the **Coin Dealer Newsletter** (est. 1963), is the *only* price guide available listing the wholesale bid levels of coins certified by the Professional Coin Grading Service, Numismatic Guaranty Corporation, ANACS, and Numismatic Certification Institute.

Published weekly, the **CCDn** ("**Bluesheet**") reports the highest known bids on actively traded certified coins in various grades of Mint State and Proof. Prices are constantly updated for the most popular series and issues graded by the four leading services. Bids for PCGS and NGC are reported every week; bids for ANACS and NCI are updated monthly.

Over the past five years, the certified market has been incredibly active. The volatility that has come to characterize the sight-unseen market has been especially pronounced since early 1990. As our CCDn CMI (a weekly Bluesheet feature) illustrates, the market is starting to recover now. And in addition to pricing changes in the market, Bid levels will differ considerably from one service to another.

The **Bluesheet** reports dealer bid levels for sight unseen coins. Dealers may pay even more depending upon their needs, but remember, that volatility is a characteristic of the certified coin market. Bids can increase or decrease dramatically in a short period of time. Without current market information, making informed buying or selling decisions is impossible. You need the **Bluesheet** now!

# Early American Numismatics

The Country's Largest Market Maker in Colonial Coins

Over 100 ANACS Certified Colonial Coin Rarities in Stock !

**A**s the dynamic certified rare coin market continues to expand, ever greater numbers of serious investors are being introduced to the world of numismatics. Naturally, a certain portion of these individuals have taken a personal interest in the hobby and history of coin collecting.

Colonial Coins and Currency form the earliest beginnings of our American numismatic heritage. For over a century and a half and right up through the 1950's, Colonials have formed the very core of *virtually every* major numismatic collection!

Colonial Coins represent the last bastion of resistance to becoming a part of today's "Slab" marketplace. There are several significant reasons. Colonial Coins must be seen! They were created on crude, sometimes irregular or defective planchets and struck from hand-engraved dies. Weights and shapes vary. Early dies deteriorated rapidly creating cracks, mounds or reduced details. Therefore many different "die varieties" of the same basic coin design were produced. Indeed, collecting Colonials is one of the most fascinating and extensively studied areas in American numismatics.

# **CREDIBILITY**

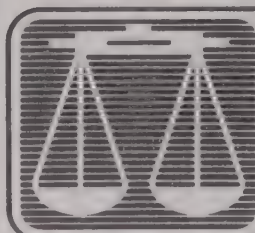

## **A GOAL THAT'S NOW A REALITY**

As numismatics grew from a hobby to a business to a major industry, it became evident that its growth was limited because of a lack of investor confidence—a real credibility gap. Simply put, the investment community and the investing public has not felt confident in the consistency of the industry's grading. They therefore could not view investing in coins as a sound investment option.

### **Those days are now over.**

The NUMISMATIC GUARANTY CORPORATION OF AMERICA (NGC) has been formed to provide the industry with an independent, credible and superior coin grading service. Now dealers, collectors and investors can be confident that they will get consistent coin gradings, time after time.

And NGC plans on doing a great deal more. In the coming months we will be announcing a series of new plans and programs designed to foster the industry's pride, and promote professionalism and growth. NGC is committed to insuring that never again will our industry have a crisis in credibility—Now that's truly incredible.

## *The Greysheet*

(as the Coin Dealer Newsletter is often called) has been the standard wholesale pricing guide of the coin industry since 1963. It is an up-to-date reporting of dealer-to-dealer Bid/Ask prices on rare coins from the earliest through the most recent issues. (For 28 years we have given our subscribers the most comprehensive and unbiased report on the entire coin market with all the facts necessary to make informed buying and selling decisions). The CDN is published weekly to enable you to keep pace with the often dramatically changing price levels. Plus your subscription includes FREE monthly supplements. All coin dealers have discovered how invaluable the "Greysheet" is.

## IN TODAY'S MARKET, CAN YOU AFFORD NOT TO SELL THROUGH HERITAGE NUMISMATIC AUCTIONS?

In today's coin market, one grading point can make a difference of several hundred percent in the value of an uncirculated coin. And it's well known that not all grading opinions are equal. In fact, repeated submissions of the same coin, to the same service can result in two, or sometimes even more different opinions. So even if your coin is certified and you sell it for "over bid", that doesn't mean that you got all the money it was worth.

### GETTING THE MOST MONEY

In order to receive the most money for your coins, they must be encapsulated at the highest grade they are ever likely to get. Any auction company that promises the highest prices for your coins, cannot possibly deliver on that promise without carefully examining each coin, and making an informed decision as to which service the coin should be submitted, or if it is already certified, whether or not resubmission is advisable.

### THAT'S WHERE WE COME IN

No company is better qualified than Heritage Numismatic Auctions to make these difficult decisions. Through our affiliate, Heritage Rare Coin Wholesale, we have ready access to the opinions of four individuals who have all graded for PCGS at one time or another. They are involved with trading coins on a daily basis, and they examine literally thousands of coins per week, making exactly these types of decisions for a living. To put it bluntly, top talent such as this is simply unobtainable at any other auction company.

### GET WITH THE PRESENT

The single most important factor in getting you the most money for your coins is the certified grade at which they're auctioned. In fact, nothing else is even close. So, if you're truly interested in getting the most money for your coin collection or portfolio, put the experts at Heritage to work for you.

The *Certified Coin Dealer Newsletter*  
announces a new **monthly** publication  
featuring **Lowest Asks or Last Trades**:

# *the CCDn ASKSHEET*

With the **sight-unseen** market beset by controversy over declining Bids, dealers need to have more complete information **now, more than ever!** Responding to the requests of scores of dealers, we are pleased to provide an important new source of necessary information. Even if the **sight-unseen** Bid reaches unrealistically low levels, having wholesale Low Ask or Last Trade information available will allow dealers to make more informed buying and selling decisions. And the spread observed will also give a strong indication of market liquidity.

The *CCDn ASKSHEET* will provide subscribers with the Lowest Ask or Last Trade prices seen during the preceding month in the dealer-to-dealer, wholesale marketplace. While we are offering this publication separately from the *Bluesheet*, we must point out that neither publication alone will give a complete picture of current wholesale market values. In fact, every page of the *ASKSHEET* will contain a caveat to that effect. After all, the Lowest Ask doesn't necessarily represent market value any more than the Highest Bid. But together, they should define the parameters of wholesale market value.

Hopefully, access to these dealer-to-dealer offers to sell will help stabilize the market price of coins. Uncertainty of value in a supply/demand marketplace means that fewer transactions can occur, and that benefits neither potential buyer nor potential seller.

Subscribe now to the *CCDn ASKSHEET*. Compiled by the same staff that has made the name *Bluesheet* synonymous with accuracy, timeliness, and reliability.
